

SSEN Connections

Connection Customers Steering Panel meetings

We are hosting our Connection Customers Steering Panel webinars for our stakeholder groups between 5th - 9th October. The aim of the CCSP meetings is to encourage stakeholders to engage directly with the senior leadership team and for us to listen, prioritise and act on feedback.

We have an interesting agenda which includes updates from Networks, Connections and ICE. Our Expert Panel will be highlighted and we will be hosting sessions on the Connections Journey and Future Commitments as well as including stakeholders in a 'prioritisation of feedback received' exercise.
