Event Programme at a glance

09:30 Registration

10:00 Morning plenary speakers

11:15 Refreshment Break

11:30 Workshops

12:30 Networking Lunch and exhibition

13:30 Afternoon plenary speaker

14:00 Workshops

15:00 Refreshment break

15:20 Panel Discussion and Q&A

16:00 Closing Remarks

16:15 Conference Close

Event programme is subject to change.

For more information about
the **workshops** we are
running see our website.

Workshops at a glance

Workshop 1 - Douglas Room

Skill building and sharing for the energy transition

Facilitated by Rachel Moffatt and Paul Chandler

Workshop 2 - Boardroom

Smart local energy systems: Unlocking net zero

Facilitated by Ruzanna Chitchyan

Workshop 3 - Lister Room

Feasibility funds and employment

Facilitated by Ollie Pendered

Workshop 4 - Stothard Room

Community scale low carbon heat

Facilitated by Kate Gilmartin and John Taylor

Workshop 5 - Bow Room

What's new? Sharing learning about emerging opportunities for community energy groups

Facilitated by Gerard Couper

For more information about the **workshops**
we are running see our website.

Conference speakers

Darren Jones MP
Chair of BEIS Strategy
Committee

Lord Callanan
BEIS Minister

Philip Coventry
Co-Chief Executive,
CEE

Panelists

The role of energy communities in the changing energy landscape

Helen Seagrave, Panel Chair

CEE Interim Chair

Dr Andrew Garrad CBE

Wind Energy Expert

Louise Hosegood

South West Energy Hub

James Goodman

Local Trust

Kate Gilmartin

North West Energy Hub

Ruzanna Chitchyan

Bristol Energy Network

Exhibitors

Bristol Energy Cooperative

Bristol Energy Coop is an impactful community energy organisation working in the South West. Since 2011 they've raised over £14million, installed over 30,000 solar panels, and channelled over £300,000 into community benefit funds.

Microgrid Foundry

The Microgrid Foundry is a joint venture company, set up by Bristol Energy Cooperative and CEPRO, a Bristol based microgrid developer, to help house builders affordably decarbonise new-build housing. The first two community microgrids enter operations this summer.

Exhibitors

ENERCON specialises in turbine and technology development, production, sales and servicing of onshore wind turbines. Pursuing its mission 'Energy for the world', ENERCON has driven sustainable energy generation since 1984.

Younity is a joint venture between the Midcounties Co-operative and Octopus Energy. Younity aims to provide vital support for community generation across Great Britain, drive investments in local communities and pay generators a fair price for the power they produce.

BRISTOL

BRISTOL
city leap

Bristol's journey towards becoming a zero-carbon, smart energy city has received a boost as a new partnership has been unveiled between Bristol City Council and the private sector. The council has selected Ameresco Limited as its strategic partner to form the City Leap partnership.

The City Leap partnership is aimed at delivering low carbon energy infrastructure, such as solar PV, heat networks, heat pumps and energy efficiency measures at scale, all which will help Bristol meet its carbon reduction targets of becoming carbon neutral by 2030.
