

Supporting Communities
Erin Murchie – Community Relations Manager

OUR ONSHORE WIND FARMS

- Over 20 years experience in the UK
- Built first wind farm in Wales in 2004
- Now have 12 in the UK
- Pioneers in community engagement and ownership
- £1.13 million per year distributed to local communities with 17 community trusts
- Local energy discount scheme set up in 2017

OUR CO-OPERATIVE MODEL

- 7 co-operatives in Scotland
- Designed to enable people to buy a stake in their local wind farm
- Provides benefits to the community while delivering an annual return on capital to members
- Over 3600 investors investing over £11 million. Distributed more than £6m in dividends
- Managed by boards set up by local volunteers
- Partnership with Energy4All
- Only developer to set up more than one co-operative

COMMUNITY OWNERSHIP

- Community turbine at Earlsburn Wind Farm benefits whole community
- No initial financial investment required from the community
- Renantis paid initial cost of turbine and Fintry Renewable Energy Enterprise paid it back over 15 years
- FREE use proceeds of energy generated to fund sustainable community projects

HOW CAN WE HELP YOU DEVELOP A WIND FARM PROJECT?

With Renantis as a community partner
we provide

- A tailored solution for your site
- Project finance
- All technical aspects
- Management of the process from inception to operation
