

# Introducing Sheffield Energy Works

Community Energy England  
17th of November 2025

# Sheffield Energy Works

Community  
Interest  
Company

Aim to  
decarbonise  
and build  
community  
wealth

Delivering  
retrofit and  
clean energy  
projects

Established in November 2023, SY Ecofit has already established a strong pipeline of clean energy projects.

We are now ready to start raising capital for our first project. To do this, we have set up a new Community Benefit Society to act as the asset owner...

*... Sheffield Energy Works*

# Sheffield Energy Works: Our focus areas

Creating local jobs and capability with a dedicated, full-time development and operation team

Sale of electricity on site, negating the need for grid connections

Becoming a major developer and owner of clean energy projects in South Yorkshire

Establishment of a Community Benefit Fund to invest in other South Yorkshire projects

Projects at scale, and / or replicable

Taking community energy into new sectors

# Sheffield Energy Works: Our pipeline

Community Energy  
& Agriculture  
ReMoobale Energy  
at Our Cow Molly  
Barn Roof Solar &  
Anaerobic Digestion

2025-2026

Community Energy  
& the Charity Sector  
Third Wave Energy,  
solar and batteries  
on housing charity  
properties

Community Energy  
& Heritage Buildings  
Wentworth Woodhouse  
Solar, Mine Water Heat  
Recovery & Anaerobic  
Digestion

2026-2028

# Sheffield Energy Works: Our focus areas

Working with the Sheffield Energy Hub to establish a permanent presence for community energy in South Yorkshire

Collaborations with partners including the University of Sheffield and Hallam University to build the social – economic – environmental case for community energy

Our first share raise for the ReMooable Energy project later this year

Two more GBE Community Fund Feasibility Studies about to start

If you'd like to collaborate on a project with us, please get in touch!
